

Welcome to Floornet

the hybrid flooring company

Floornet
Flooring Products

The world is becoming hybrid everywhere we look. From cars to business models, working patterns to fashion, and so flooring has to change as well. With the introduction of the ter Huerne Hywood, the hybrid wood floor we have taken a look at our whole business and would like to introduce you to our hybrid concept of flooring and finishes specification and supply.

Floornet has been 40 years in the making a combination of exclusive manufacturer representation, distribution partnerships and professional specification and brokerage. In reality we offer a full supply package installed through our dealer & contractor network.

ter Hürne

The Origin brand of products are designed and produced with our manufacturing partnerships :

ter Huerne - Flooring (Germany)

Hesse-Ligna - Coatings (Germany)

HMG - Paints (UK)

The Origin brand is promoted directly to the professional design market.

Origin Decorative offers an online store facility.

Total interior finishing solutions from one source, working with the manufacturer, secured by our distribution partners. Our hybrid business construction enables us to scale according to the project needs.

Our national network of installers is again a collaborative partnership offering direct dealings with the correct level of project management.

"product and service quality is paramount - true value"

floornet works with the floor hub
range of carpet tiles.....

Foundations in Manufacture working in true partnership.

Our supply chain is dedicated and non-conflicting with each partner offering unique elements to the business. In many cases our partners are working closely with each other in product development. Floornet acts as the UK market representatives and business management for these companies and thus can call upon all the facilities and functions offered by that relationship.

DIRECT FACTORY SUPPLY for larger projects.
EXCLUSIVE DISTRIBUTION for day to day business.

Our distribution and logistics for the UK are operated by Volante with whom we have had a long history. As specialist contract distribution they offer unrivalled service and reliability, critical to successful project works.

Our UK stock holding of products is provided by this partnership.

"the partnership with exclusive distribution enables us to source products outside of our manufacturing partnerships where project schemes dictate"

WITH THINGS IN THE WORLD A LITTLE UNCERTAIN IT'S REASSURING TO KNOW THAT OUR FLOORING REMAINS INNOVATIVE, ATTRACTIVE, RELIABLE AND SUSTAINABLE.

ENGINEERED WOOD

DURECO DESIGN FLOOR

AVATARA DESIGN FLOOR

ENGINEERED WOOD

We have over 75 finishes in stock and provide an unlimited colour range finished in the UK.

DURECO DESIGN FLOOR

Created with next generation laminate, waterstop and SEAL technology. Plastic free.

ter Hürne

Call 01787 461420 or visit www.terhuerne.com

Origin Floors represent Ter Hürne in the UK (part of Origin Decorative a Symphony Coatings Group Company).

Working with wood based products wherever possible.

Floornet only provides products with the highest sustainability criteria. We believe that our judgement criteria are more stringent than most taking into account the whole supply chain, raw materials, production locations and environmental impact in every way, now and for the future.

"no greenwashing in our sustainability criteria"

Colour is critical to design our colour labs offer precise matching.

Our Origin Paints are formulated and manufactured by HMG in Manchester. We have worked together to create a stunning palette of colours on many different technical bases as well as being delighted to offer a full colour matching service for your individual project.

WOOD OILS & COATINGS

by Hesse-Lignal Germany

A family owned business and one of the largest coatings manufacturers in Europe. Specialising in wood coatings and particular waterborne coatings and oils that spearhead the move towards solvent free.

Suppliers to ter Huerne flooring and many industrial manufacturers but also supporting the handcrafting and specialist wood craft industry.

TECHNICAL COATING SOLUTIONS that meet stringent new sustainability thinking.

Hesse-Lignal oils and stains are featured on Origin Engineered and Hybrid Wood Floors. We offer the full range of colours but also create, formulate and apply individual colours that work exactly for your project.

PURCHASE AS COATINGS ONLY
or FULLY FINISHED FLOORS
and WALL PANELS.

for all the technical data take a look at www.hesse-lignal.de

- INTEGRATED VALUE ENGINEERING

""over the last 40 years our directors have worked on many large scale residential projects with contractor partnerships"

ABOUT FLOORNET

Floornet and our partnership companies offer the potential to select all your interior surface finishes from one source. This helps with product co-ordination, planning, costing and project management. We are able to provide stock collections, modified product variants or indeed full custom solutions to meet your project requirements.

This can be achieved by our "hybrid format" we are manufacturer, supplier and distributor all in one, and as we work closely with the flooring contractors we are able to help you get the products installed if you require that service.

We also offer just consultancy providing sampling, design boards and costings from all of the products that form part of our distribution partnerships programme. We will always first and foremost offer products from our manufacturing partners but are realistic and open to working with any quality manufacturer with whom we have a working relationship.

We operate nationally although a large part of our business is within London, the South East of England and the Eastern Counties of England. We actively use Zoom as a meeting format and provide sampling by next day courier. If face to face meetings are desired these can be at your offices, on site or at our partner facilities in Chessington, St Albans, Brighton or Sudbury (Suffolk).
